R.B.I.™ BASEBALL 3

INSTRUCTION BOOKLET

TENGEN

MANUFACTURED BY TENGEN

OBJECT OF THE GAME/GAME DESCRIPTION: *First there was RBI Baseball. It set the standard as the first baseball game for play on the NES® to use real players and their stats. Next came RBI Baseball 2, with 1989 stats, enhanced graphics and sound. Now there's RBI Baseball 3! You get 1990 numbers for the pros on all 26 teams — and more: You can play with all Division Champions from '83 through '89! Select your favorite team and create any lineup you want with a 24-player roster. It's time to play ball — pro ball!*

PROBLEMS? We recommend that you read this instruction booklet to learn and master the operation of this game. By doing so you'll have hours and hours of fun with your family and friends! Should you have any further problems or questions about playing this game or any of Tengen's games, please call a **Tengen game counselor** at **(408) 433-3999** Monday through Friday from 8:30AM - 6:00PM Pacific Time.

PRECAUTIONS: **1.**This is a high precision game. It should not be stored in places that are very hot or cold. Never hit or drop it. Do not take it apart. **2.** Avoid touching the connectors, do not get them wet or dirty. Doing so may damage the game. **3.** Do not clean with benzene, paint thinner, alcohol or other such solvents. **4.** Do not leave the game paused for a long time as the image may "burn" into the TV screen.

TO ORDER OTHER GREAT GAMES FROM TENGEN, CALL: **1-800-2-TENGEN (1-800-283-6436)**

OFFICIAL 1990 ROSTERS & STATS 10

'83-'89 DIVISION CHAMPS ROSTERS & STATS 20

1. INTRODUCTION

R.B.I. BASEBALL 3 simulates real baseball. Most of the rules and strategies of the actual game apply. Like a real game, you must bat, pitch, field, run and substitute players well to win. Each player has his own strengths and weaknesses based on his real-life numbers. For batters, the stats include his position, hitting ability, power, running speed and whether he is right- or left- handed. For pitchers, the stats include his control, pitching speed and stamina.

All the players in R.B.I. Baseball 3 were developed from two sets of actual pro stats: the 1990 teams and the Division Champions from 1983 through 1989. For example, a player who stole numerous bases and had a high batting average in real life will have a high speed in the game. A player with numerous home runs in real life will have a good power rating in the game.

Beat all the other teams and you'll earn the chance to challenge a "secret" super team!

2. HOW TO START PLAY:

Press START :

1P: Play against the computer.

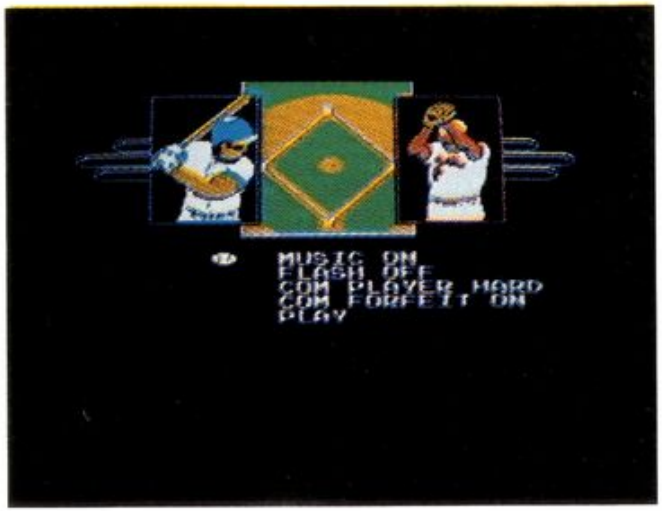
2P: Competitive play.

Watch: Computer vs. Computer (as if on TV).

Continue: To enter a password.

Options: To select more options.

Options:



To change the current option setting, press START .

To cycle among options, press SELECT.

Music: *On:* Background music plays during the game.

Off: No background music plays.

Note: The sound effects are always present.

Flash: *On:* The two infielders you have control over flash (useful when you are first learning to play).

Off: No fielders flash.

Computer Player: Hard/Easy (how well the computer plays).

Computer Forfeit:

On: The computer forfeits if losing by twelve runs.

Off: The computer does not forfeit.

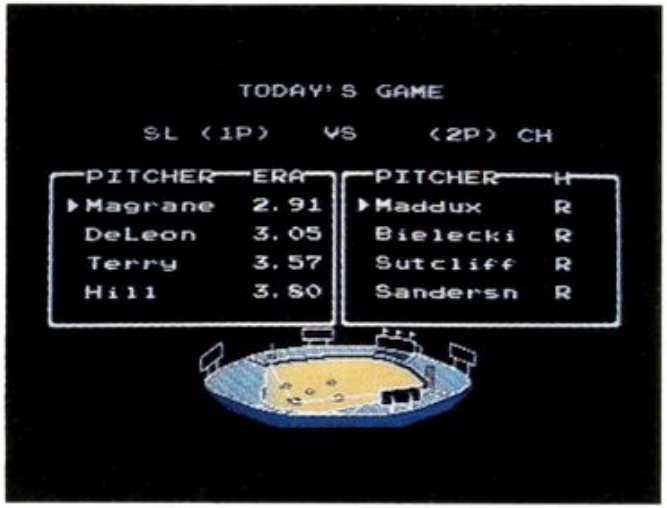
Note: A player may forfeit at any time.

Play: Return to the main menu.

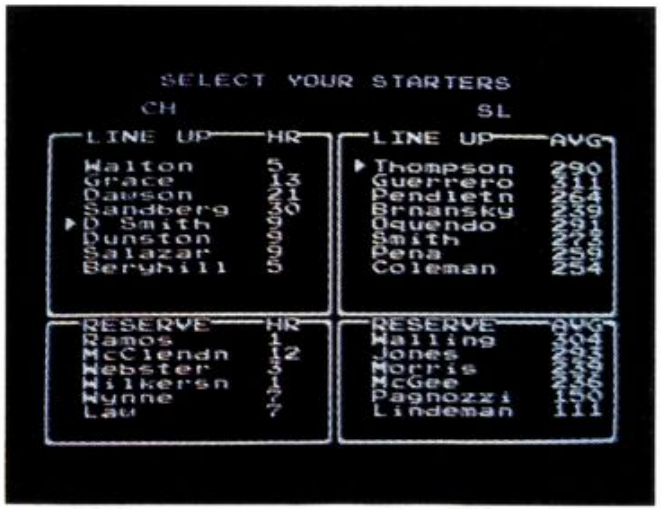
To Select Your Teams and Year: Move the cursor with the control pad. Press the A button to select the team and year chosen. Select your computer team this way as well. Press B button to choose a different year. The years that are available are shown directly below the team selected. Not all years are available since years before 1990 are for Division Champions only.

To Select Your Starting Pitcher: Move the cursor up and down with the control pad. Press the A button to select.

Note: You may use up to 5 pitchers per game: 1 starter and 4 relievers or 2 starters and 3 relievers. The first 4 pitchers on your roster are the starters. A starting pitcher may only appear in every other game of a series.



Select your starting pitcher.



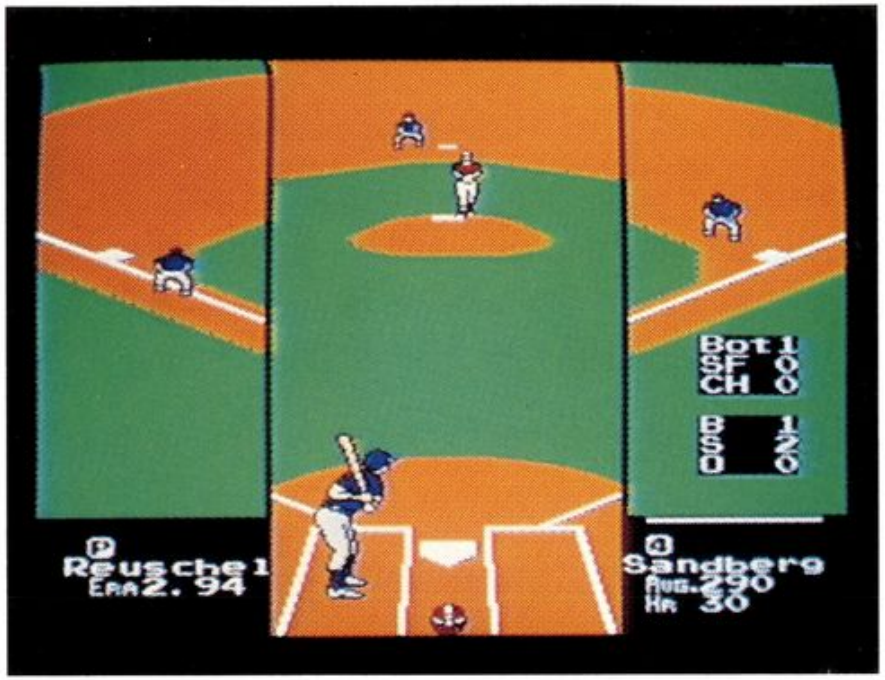
Select your starting lineup.

To select your starting line up: Move the cursor with the control pad.

Press the B button to change players.

Press the A button to accept the current lineup.

3. OFFENSE CONTROLS



At Bat:

Control Pad: Move the batter's position in batter's box.

A Button: Batter swings bat. Press and hold for a complete swing. To bunt, press and release the button quickly or press SELECT, as described in the following paragraph.

SELECT: Use this button to bunt. Press once and the batter prepares to bunt. If the pitch is a ball, press again and the bat will return to the ready position. If you press too late, a strike will be called.

Base Running Control:

Control Pad:

Up: Runner advances/returns to second base.
Down: Runner advances to home plate.
Left: Runner advances/returns to third base.
Right: Runner returns to first base.

B Button: Base runner advances to the next base. Choose the base you want the runner to run to with the control pad and press the B button. Use the B button to steal bases, for hit and run plays, squeeze plays and to advance extra bases during a play.

A Button: Base runner returns to the previous base. Choose the base you want the runner to run to with the control pad and press the A button.

Note: The base runners run as soon as the ball is hit. When a fly ball is hit, it is up to the player to make all of the base runners go back to avoid a double or triple play. After tagging up you may advance to the next base.

Batter Time-Out Options:

(Press START to call time out)

Substitutions: Change a batter or base runner.

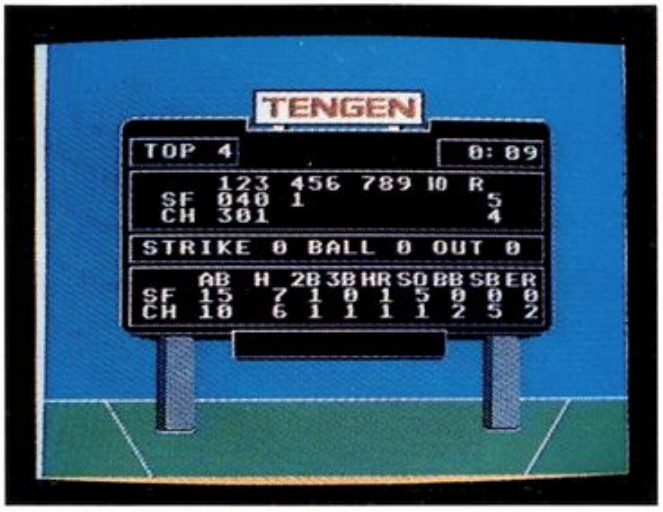
Move the cursor to the player you wish to remove from the lineup. His name appears at the top of the screen under the word "Replace." Now move the cursor to the player you wish to insert from the bench. His name appears to the right of the person he is replacing. To view additional stats press SELECT. Press the A button to substitute or START to not substitute.

Switch Hit: Switch to left or right handed batting. Only batters who are switch hitters may do this.

Scoreboard: Press the B button to see the scoreboard. On the scoreboard, press SELECT to choose the forfeit option. Press SELECT to change yes or no, then press START to accept.

Play Ball: Return to play.

Instant Replay: See a replay of the last play. Some plays cannot be viewed by instant replay.



4. DEFENSE CONTROLS

Pitching:

Control pad:

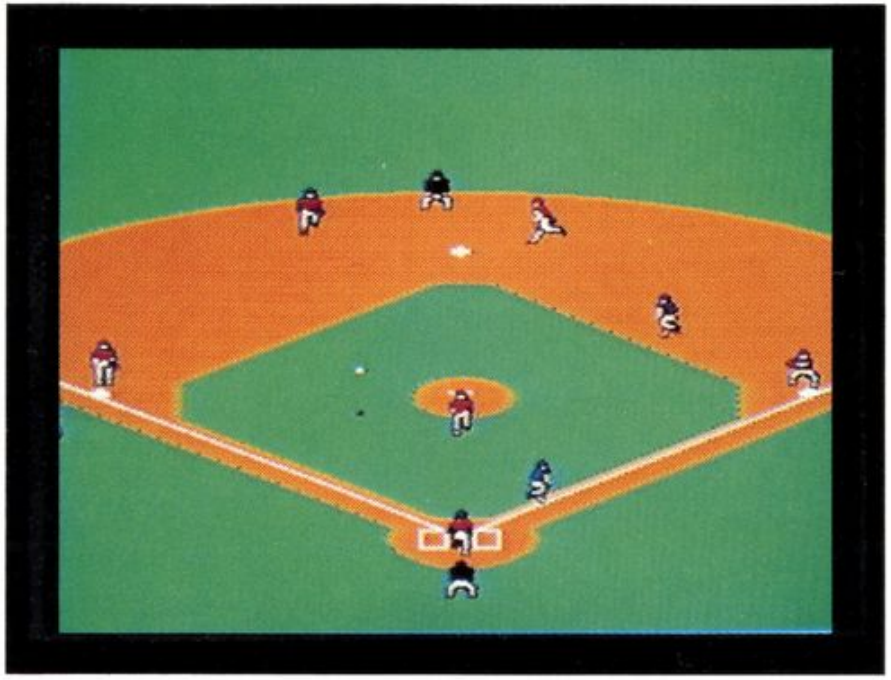
Up: Knuckleball/Sinkerball.
Down: Fastball.
Left: Curveball left.
Right: Curveball right.
No direction: normal speed pitch.

Note: The pitcher can move side to side on the mound before the pitch is thrown by using the control pad.

A Button: Pitches the ball — Press the A button to throw the pitch. On the contol pad, press and hold up, down, or neither before you press the A button to decide the speed of the ball. Once the windup starts the speed cannot be changed. After the ball is pitched, you can control the ball by moving the control pad left and right.

B Button: Attempt to pick off a base runner. You may choose which base the pitcher throws to by using the control pad and pressing the B button. If the pitcher is looking at a base, he throws to that base.

Fielding the Ball:



Control Pad: Moves your fielders —

Up, Down, Left or *Right*

After the ball is hit, you may dive and jump for the ball. Press either the A or B button when the ball is near you and you will jump or dive. You can jump when the ball is in the air. You can dive when the ball is on the ground (or very near it). Press right or left to control the direction of the dive. By timing this correctly, you can field many balls you would not normally be able to field.

Note: It is possible, though very hard, to make a diving catch. You must wait until the ball is very close to the ground before attempting to dive. Otherwise, you will jump and miss the ball.

A Button: Press the button to throw the ball. The ball will be thrown to the base you select with the control pad. When no base is selected, the ball will be thrown to first base.

B Button: Press the button to run to a base. The fielder will run to the base you select with the control pad. When no base is selected, the fielder will run to first base.

Errors: Occasionally a fielder will "bobble" the ball, or make a poor throw. Avoid throwing the ball to a base when a fielder has left the position. The chance for errors is based on the team you are using.

Pitcher Time-Out Options:

(Press START to call time out)

New Pitcher: Move the cursor to the desired relief pitcher. Press the A button to do the substitution.

New Fielder: Move the cursor to the player that you wish to remove from the line up. His name appears at the top of the screen, below the word "Replace." Now move the cursor to the player you wish to insert from the bench. His name appears to the right of the person he is replacing. You may view additional stats by pressing SELECT. Press the A button to substitute, START to not substitute.

Scoreboard: Press the B button to see the scoreboard.

Play Ball: Return to play.

Instant Replay: See an instant replay of the last play that happened. Some plays cannot be viewed by instant replay.

5. WATCH MODE:

Watch mode can also be used as a training mode or a manager mode. In this mode, the computer will control the game, but you may participate by using the controller. To manage, let the computer play the game while you substitute players and tell runners to steal bases. To train, let the computer do the difficult fielding while you do the easier fielding.

6. SERIES PLAY:

In a series, remember that a starting pitcher may only appear as often as every other game. If you use all the best starting pitchers in your first game, they will not be available in the second.

In two-player mode, you play a seven-game series.

In single-player mode, you can play a seven-game series by:

- selecting one team from NL and one from AL.
- selecting the computer team to be a division winner.

In single-player mode, you can play all the teams in the 1990 league by:

- selecting the computer team to be a 1990 team and selecting another team from the same league for yourself.
- selecting the computer team to be a 1990 team and selecting a division winning team from the same league for yourself (just don't pick the same team as the computer's).

7. TIPS:

Pitching:

The starting pitchers have more stamina than the relievers. Always be aware of your pitcher's ability because he gets tired. Keep an eye on the MPH and how much you can move the pitches sideways. The fastball and sinkerball will use more stamina than normal pitches. When pitching to the computer, especially when a power hitter is batting, try not to throw it over the middle of the plate. Using the sinkerball when you have two strikes on the hitter is often a good tactic.

Fielding:

You should begin to move your fielders as soon as the ball is hit. Get familiar with the starting points of all your fielders so you can react quickly instead of waiting until you see the fielders. When a pop fly is hit, you need to predict where the ball is going to land and move the closest player to that destination. Adjustments should be made based on the shadow of the ball and the tone that indicates the height of the ball.

Batting: Do not stand still in the batter's box. Try to fool the pitcher as to where you will be when the ball is thrown.

General: If you replace a fielder with a player that is not from the same position, there will be more errors.

Never talk to your opponent about the last pitch. If he knows what you think about it, that may help him on the next pitch.

When you throw or run with the ball, choose the desired direction with the control pad, then press the A or B button. Do not select a direction, let go, then press the A or B button. You must hold the control pad arrow until after the button is pressed.

Hint: For a quick throw, press a direction and the A button at the same time.

OFFICIAL 1990 PLAYER ROSTERS & STATS

RBI Baseball 3 uses real players and their actual 1990 stats. Now, you get to make all the decisions a real manager makes! These stats will help you decide which players to put on the field to get a winning combination. You saw how the pros did in real life. Now see what they can do when you manage them!

COMPLIANCE WITH FCC REGULATIONS: This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna.
- Relocate the NES with respect to the receiver.
- Move the NES away from the receiver.
- Plug the NES into a different outlet so that computer and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful: **How to Identify and Resolve Radio-TV Interference Problems.**

This booklet is available from the U.S. Government Printing Office, Washington, D.C. 20402, Stock No. 004-000-00345-4.
